Abstract. Money laundering has been affecting the global economy for many years. Large sums of money are laundered every year, posing a threat to the global economy and its security.

Machine learning techniques for anti-money laundering (AML)

Bullying is the use of force, threat, or coercion to abuse, intimidate or aggressively dominate others. The behavior is often repeated and habitual. One essential prerequisite is the perception, by the bully or by others, of an imbalance of social or physical power, which distinguishes bullying from conflict. Behaviors used to assert such domination can include verbal harassment or threat ...
