### **Recommendations for Blood Lead Screening of Young Children**

Risk is the possibility of losing something of value. Values (such as physical health, social status, emotional well-being, or financial wealth) can be gained or lost when taking risk resulting from a given action or inaction, foreseen or unforeseen (planned or not planned). Risk can also be defined as the intentional interaction with uncertainty. ...

Unintended Pregnancy in the United States. On average, U.S. women want to have two children. To accomplish that goal, a woman will spend close to three years pregnant, postpartum or attempting to become pregnant, and about three decades more than three-quarters of her reproductive life trying to avoid an unintended pregnancy.[]For a range of social and economic reasons, most individuals ...
