A black body or blackbody is an idealized physical body that absorbs all incident electromagnetic radiation, regardless of frequency or angle of incidence. A white body is one with a "rough surface [that] reflects all incident rays completely and uniformly in all directions.". A black body in thermal equilibrium (that is, at a constant temperature) emits electromagnetic radiation called black ...

The body mass index (BMI) or Quetelet index is a value derived from the mass and height of an individual. The BMI is defined as the body mass divided by the square of the body height, and is universally expressed in units of kg/m^2 , resulting from mass in kilograms and height in metres.. The BMI may also be determined using a table or chart which displays BMI as a function of mass and height ...
